WINE SYMBOLS & CERTIFICATIONS

STAFF FAVOURITES

We love them all – but the wines with this symbol are some of our team favourites and our top recommendations. We know you will enjoy them as much as we do.

ORGANIC HVE

A wine certification body that recognises commitment to protecting and enriching the environment in agriculture. There are different stages of certification for different climates throughout France.

ORGANIC

Wine made from organically grown grapes are certified after a 3-year conversion period in the vineyard. The use of fertilisers and sprays are made from natural compounds, excluding the use of artificial chemicals, pesticides, and fungicides.

BIO - DYNAMIC

Bio-dynamic farming is an extension of organic practices such as composting and the exclusion of chemical pesticides, herbicides, or synthetic fertilisers. Biodynamic farmers follow a planting calendar that relies on the positioning and rhythmic influences of the sun, moon, planets, and stars as a guide to determine when to farm the vineyard.

VEGAN

During the winemaking process the liquid is filtered through “fining agents” to remove the yeast and cloudiness of the liquid. In vegan wine the liquid is filtered through agents such as bentonite clay, carbon.

SUSTAINABLE

Sustainable vineyard and winery practices conserve water and energy, maintains healthy soil, protects air and water quality, preserves local eco systems and wildlife habitats.
